WORK EXPERIENCE

- 

Agile Robots

Software Engineer

Sep. 2025 – Present

Building AgileCore IDE: a customizable robotics development environment enabling operators to define and adapt robot actions, using Vue 3, TypeScript, GraphQL, and Python/Django. Created an entire UI library (Agile UI) for our department. Architected a robot task dataset marketplace (Agile Data Hub) with Nuxt, Tailwind CSS, Prisma (SQLite), BetterAuth, and Stripe.
- 

Jobreel

Full Stack Developer

Mar. 2024 – Apr. 2025

Full-stack development of a core job-matching application and admin panel using Vue.js, Node.js, and MongoDB. Led technical and UX improvements across the entire product stack. Designed a job ad scraping pipeline combining automated headless browser tools with hand-crafted CSS/XPath selectors to handle the long tail of ATS platforms.
- 

Misfits Gaming Group

Senior Video Editor & Motion Designer

Sep. 2018 – Sep. 2021

Led video production and motion design for LEC, CDL, and OWL esports teams across multiple brand identities in Europe. Managed a team of editors and owned the end-to-end content pipeline for major tournament broadcasts. Developed deep proficiency in design systems, visual hierarchy, and motion principles.

EDUCATION

- 

University of British Columbia

BSc, Computer Science

Jun. 2022 – Dec. 2023
- 

Simon Fraser University

Computer Science

2020 – 2022
- 

Simon Fraser University

Interactive Arts & Technology

2015 – 2017

SKILLS

Languages	TypeScript / JavaScript, Python, SQL, Java, C++
Frontend	Vue, React, Next.js, Nuxt, HTML/CSS, Tailwind CSS, Storybook
Backend	Node.js, GraphQL, Django, Prisma, BetterAuth, Stripe
Databases	PostgreSQL, MySQL, MongoDB, SQLite, Database Design & Migrations
Tooling	Git, Docker, CI/CD Processes, Vitest, Playwright, Documentation
Creative	Video Editing, Motion Graphics, UI/UX Design, Figma, Adobe Creative Suite
AI Tooling	Fine-Tuning, Skill Creation, Agent Coding Platforms/Workflows (Claude Code, Cursor, Copilot)

PROJECTS

- Agile UI**

Custom UI library built from scratch with a new design system, updated tokens, and modern best-practices for accessibility and styling.

Jun. 2026
- Agile Data Hub**

Marketplace for robot task datasets at Agile Robots, enabling operators to browse and purchase pre-recorded robot actions.

Nov. 2025
- PrairieLearn Ranked & Publication**

Capstone project at UBC building a ranking and gamification system for the PrairieLearn assessment platform, extended through directed studies under Dr. Ramon Lawrence. Co-authored an academic publication titled "Live Session Gamification using PrairieLearn".

Sep. 2023
